

## **ABSTRACT**

A wire measuring system including a housing having a handle secured thereto. The housing has a hollow interior including an exit slot formed therein. A length of tape is disposed within the hollow interior of the housing. The length of tape has incremental measurements imprinted thereon. The length of tape has a free end extending outwardly of the exit slot of the housing. A tip portion is swively coupled with the free end of the length of tape. The tip portion has a slot formed therethrough for receiving a free end of a length of wire therethrough.
